Painted Post, NY 14870 | (607) 684-5806 | maxwellbourcier@gmail.com | www.linkedin.com/in/maxbourcier

Software Engineer

Python | Microsoft Azure | .NET

- A Software Engineer professional experienced in application development and product support using ASP.NET, .NET, SQL and SSIS technologies.
- Strong communication skills and a proven ability to juggle multiple high priority tasks, detail-oriented, strong organizational skills with an ability to fulfill tasks with minimal supervision.
- Completed an intensive .NET Full Stack Bootcamp, acquiring hands-on experience in ASP.NET, C#, SQL, MVC, and front-end technologies (HTML, CSS, React and JavaScript), culminating in development of a full-scale web application project.

CORE COMPETENCIES

Soft Skills

Problem-Solving | Adaptability | Organization | Technology-Focused | Teamwork | Goal-Oriented | Resourceful

Technical Skills

Databases: Microsoft Access | SQL Server | MySQL

Technologies: Python | .NET | ASP.NET | Blazor | SQL | SSIS | C# | React | AWS

Software: Microsoft Suite | Microsoft Visio | Azure DevOps | Microsoft Visual Studio | Task Scheduler | SSMS | GitHub + Git

Miscellaneous Technical Skills: Proficiency in .NET Framework and .NET Core | Write Clean and Well Documented Code | Software Developer Lifecycle

PROFESSIONAL DEVELOPMENT

Full Stack Development Bootcamp   GenSpark   Alpharetta, GA   August 2022

EDUCATION

Bachelor of Science in Computer Information Systems: Software Programming
DeVry University   Anticipated Date of Graduation: February 2025

Associate of Sciences in Information Technology and Networking: Information Systems and Programming
DeVry University   December 2023

Undergraduate Certificate in Programming Essentials
DeVry University   October 2023

PROFESSIONAL EXPERIENCE

Software Engineer   Cognizant Technology Solutions   College Station, TX   July 2022 - December 2024
- Held daily SCRUM meetings with on-site and off-site team members within Azure DevOps Services and Microsoft Teams.
- Headed a project where a team would oversee management of information from databases.
- Resolved all issues with failed tasks and jobs for client software; solutions were documented well and built with a clear and concise mitigating impact on weekly or monthly jobs.
- Utilized knowledge of SQL, SSIS and .NET technologies to create a strong code for classified client information handling.
- Handled daily, weekly, and monthly jobs for accounting software where it was required to learn credit/debit, ledger, invoicing, and account management.
- Utilized production support knowledge on SQL stored procedures and maintaining and developing new queries.
- Collaborated with 3 Software Engineers to conduct tasks on client-provided General Ledger information; analyzed efficiency and reported software bugs, optimizing functioning by 55%.

Computer Hardware Technician   Freelance   Painted Post, NY   October 2015 - April 2021
- Troubleshooted and collaborated with clients on electronic, mechanical, software and firmware requirements to produce a product within 5% of budget and predisposed specifications.
- Maintained systems of all customers for 2+ years after initial production, so any issues may be handled properly.
- Developed software to track required customer support tickets for timely assistance without leaving any ticket age beyond 1 week.
